

Cont'd
a

27. (NEW) The liquid crystal device according to Claim 17, wherein a plurality of said transfective layers are formed in lines at predetermined intervals.

28. (NEW) The liquid crystal device according to Claim 17 further comprising a scattering plate arranged on the outer side of the first substrate.

29. (NEW) A liquid crystal device according to Claim 17, wherein the transfective layer includes recesses and protrusions.

REMARKS

The purpose of this Preliminary Amendment is to clarify the translation of the application and to add new claims to provide Applicant with a scope of protection commensurate with its contribution to the art.

Favorable consideration of this application is respectfully requested.

Respectfully submitted,

Date: November 24, 1999
